Re: Wireless Internet Access Points

There are free wireless internet access points located throughout Seapointe Village. All are open, available networks that do not require a password. Users must provide their own computer with a wireless internet card.

Access points are as follows:

Name	Location
Linksys	Available in lobby of North Beach Residences
South Beach	Available in lobby of South Beach Residences
Pinnacle	Available in Pinnacle Community Room & Game Room Available on plaza deck, in general proximity of trellis
Linksys 414	Available in lobby of Garden Residences
Centre	Available in lobby and card room in Centre Court Residences

Depending upon conditions and number of users, range may extend beyond the areas and locations identified above. Please be aware, a number of Seapointe owners already subscribe to wireless internet access. These may or may not be password-protected.

Use at your own risk. Seapointe Village assumes no liability for system use, nor for damage or theft of personal information from individual personal computers by system users.

Questions may be directed to the Association Management Office at 609 729-9090 or via email at spvma@comcast.net.
